## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species:

- I. drawn towards only displaying winning outcomes in the secondary display
- II. drawn towards displaying non-winning outcomes in the secondary display
- III. drawn towards displaying both non-winning and winning outcomes separately in the secondary display.

The species are independent or distinct because they cannot be used in combination with one another and have separate and independent uses. That is, the secondary cannot display none winning outcomes while only displaying winning outcomes or displaying both non-winning outcomes and winning outcomes.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3714

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
